PROFILE INFO

Detail-oriented software developer dedicated to ensuring that your web and mobile solutions are visually appealing and inviting.

EXPERIENCE

INFORMATION TECHNOLOGY CONSULTANT AT NEXUS ONE

2023 - 2025

I have developed frontend projects from scratch using Next.js, while also tackling smaller tasks in PHP, SQL, and C#. Additionally, I collaborate with clients to bring their ideas to life. In some cases, I have stayed with a client for an extended period to support the development team effectively.

MID-LEVEL SOFTWARE DEVELOER AT WASH WORLD

2021 - 2023

I contributed to a team that created a landing page and developed payment solutions for customers. I also resolved issues with the machine system in wash halls and began developing an internal system for administrative tasks.

INTERN SOFTWARE DEVELOPER AT INCEPT SUSTAINABILITY

2020 - 5 mo.

Intern at a startup focused on enhancing the interactivity of the site, making it more fluid and stylish.
